# 4-Head Hi-Fi LED Clock Video Cassette Recorder

## Programming and Playback Features

### Hi-Fi Stereo Sound with Built-In MTS/SAP Decoder

Record stereo videotapes from stereo sound sources and playback pre-recorded hi-fi stereo tapes in hi-fi stereo sound using two audio heads and four video heads. Delivers an excellent 90dB+ dynamic range—through a stereo-equipped TV or regular TV and stereo hi-fi home audio system. The built-in MTS/SAP decoder allows reception and recording of off-air television stereo broadcasts and second audio program transmissions, where available. Back-up memory logic retains the cable channel guide map indefinitely even during a power failure or when the VCR is disconnected from its power source.

### One-Touch Record

Record up to 8 hours or to the end of the tape with the touch of a single button. Each touch of the OTR button adds 30 minutes of additional recording time.

### 8-Event/1-Year Smart Programming

Program your VCR for unattended recording of up to 8 separate programs over a full 365-day period. No manual setting, adjusting, or programming of the calendar function is required.

### Remote Control Onscreen Menu Programming

Program by remote control for unattended recording, with programming instructions onscreen for visual verification. Onscreen menus lead you through normal, daily, or weekly programming by program number, channel to be recorded, start and stop times, speed, and date of recording by day, month, and year. Pressing the clear button lets you go back and reprogram over mistakes, and pressing the menu button at the end of programming verifies that instructions are locked into memory.

## Picture

### 4-Head, Double Azimuth Design

Combines direct drive cylinder and capstan motors with precision digital servo control to produce excellent special effects reproduction in Still and Slow modes in both SP and SLP speeds.

### 19 Micron Head

Introducing a dramatic improvement in videotape playback capabilities. You'll enjoy a significantly better playback in SLP mode and a remarkable playback in LP mode through specially-designed narrow heads which clear up onscreen picture noise.

### Digital Auto Tracking System

When tape playback begins, this feature automatically seeks the optimum tracking position in the tracking range, and the optimum audio signal tracking position for clearest picture and sound. Buttons on the remote transmitter give you manual control should tracking adjustments be necessary.

### Auto Head Cleaner

Gently, automatically cleans the video heads each time a tape is inserted or removed to maintain optimum picture performance during both recording and playback.

### SQPB (S-VHS Quasi-Playback)

A revolutionary video playback technology that allows you to watch videotapes recorded in the S-VHS (Super-VHS) mode without buying expensive S-VHS equipment.

## Convenience

### SmartClock™ with Time Zone Select

This menu-driven feature automatically maintains the correct time, regularly checking and updating the time if necessary. It also resets the clock after a power failure. The menu-driven time zone feature allows selection of appropriate time for those who live in a time zone other than that of their cable service provider or broadcaster.

### Clock/Function Display

Continuously alerts you to all important recording and playback conditions, correct time, counter position, tape speed, channel number, etc.

### Front Panel Audio/Video/Game Inputs

### Front Panel Menu Access

### Bilingual (English/Spanish) Onscreen Function Display

### Onscreen Real-Time Counter with Time Search

### Alternate Channel (for TV)

### 400mm Front Panel Width

## Special Effects

### Still Frame

Freeze the video at the touch of a button for a smooth, clear image.

### Slow Motion

View SP or SLP video recordings in slow motion in both forward and reverse modes.

### Repeat Play-Indefinite

## Remote (Remote # N9216UD)

### VCR/Universal TV/CBL/DBS Remote with Glow Buttons

Multifunction infrared remote controls all operating features and functions of this VCR, plus select functions of most Philips, Magnavox and some competitive brand television sets, as well as some cable converter/decoders, and standard features of Philips, Magnavox, RCA, and Sony, digital broadcast satellite receivers. Change channels fast with the numeric direct access keypad and heads-up onscreen display for confirmation.

## Full Feature Auto Package

- Power On
- Digital Auto Tracking
- Auto Play
- Auto Repeat
- Auto Rewind
- Auto Eject
- Auto Power Off
